EXP 02:Reenter the string

package prorams;

import static org.junit.Assert.assertEquals;

import java.util.Scanner;

public class pro2 {

```java
        public static void main(String[] args) {
                Scanner in=new Scanner(System.in);
                    System.out.println("enter the user name");
                String str1=in.nextLine();
                System.out.println("Reenter the user name");
                String str2=in.nextLine();
                assertEquals(str1,str2);
                    }
            }
```
